18. – 23. 3. 2018
Frankfurt am Main

light+building

**The world's leading trade fair for
lighting and building services technology**

Your guide to
security technology

With the SECURE! special show

Intersec Forum – the
conference for connected
security technology
19. – 23. 3. 2018

messe frankfurt

Secure and convenient:
Intelligent security technology is on the rise.

The demand for electronic security technology is growing year on year. The willingness to invest in security and the awareness of its importance are increasing – as is the number of manufacturers, products and solutions.

Secure and future-oriented
Modern concepts for home and work areas place a high emphasis on security and convenience for occupants and users. The networking of security systems with each other and with all building service technologies gives added value. Electronic security technology is an integral part of today's "smart building".

Secure and smart
As a classic product area of electrical engineering, security technology is one of the key themes at Light + Building. Discover all the latest trends around the "smart building", as well as innovative lifestyle and work concepts. The home and building automation segment is brought together in the various halls with electronic safety and security technology to create a centre for integrated building services technology.

Secure and innovative
More than 150 manufacturers come here to show off their latest ideas, products and solutions in the following segments:

– Warning and alarm systems
– Video systems
– Electro-acoustic systems
– Sofware
– Lighting
– Access control/biometrics
– Personal paging systems
– Smoke and heat extraction systems
– Preventive fire protection

Product categories

Warning and alarm systems

1 Fire report systems
2 Intruder and theft detection systems
3 Hold-up alarms
4 Gas detection systems
5 Smoke detectors
6 Leak detectors
7 Motion detectors
8 Emergency call systems

Video systems

9 Cameras
10 Monitors
11 Central surveillance units
12 Recording equipment
13 Systems and software for management and analysis

Electro-acoustic systems

14 Call stations
15 Automatic audio messaging equipment
16 Loudspeakers
17 Signal generators
18 Complete systems

Software

19 Software

Lighting

20 Emergency lighting
21 Safety and security lighting
22 Object protection lights
23 Explosion-protected lights
24 Security and warning lights

Access control equipment/biometrics

25 Entrance control systems
26 Identification systems
27 Gate and door opening systems
28 Door speakers
29 Computer systems for primary control centres
30 Guard control systems

Personal paging systems

31 Visual paging systems
32 Radio paging systems
33 Intercom systems
34 Clocks and time distribution systems

Smoke and heat extraction systems

35 Natural smoke and heat ventilation systems
36 Mechanical smoke and heat ventilation systems
37 Smoke protection pressure installations
38 Motorised drive units
39 Control elements
40 Automated control systems
41 Smoke, temperature and wind sensors

Preventive fire protection

42 Cable installations for fire protection
43 Cable/cabling systems
44 Fire sealing/partition materials
45 Earthing, voltage compensation, lightning protection, excess voltage protection
46 Fire-protection current distributors, distribution boards, distribution cabinets

Comprehensive and multifaceted:
Further security technology offers.

Your added value – special shows, exhibitor activities and the Intersec Forum: Look forward to an array of events:

The "SECURE! Connected Security in Buildings" special show

In Hall 9.1, this special show presents innovative solutions for electrically and electronically driven security systems in three areas of application (hotel, office and industry) in real-life contexts (fire, storms and burglaries). The various components of security are thus linked in ways that integrate individual products and systems. From engineers to manufacturers and installers – more than 40 companies will be working together on a wide range of applications.

Intersec Forum

The conference for connected security technology takes place from 19 – 23 March 2018 – also in Hall 9.1.

A total of 80 international experts from manufacturing industry, science and politics will be exploring exciting industry themes:

– Industry dialogue for planners and installers
– Industry dialogue for operators, facility managers and manufacturers
– Fire-alarm technology and fire protection
– Access control and monitoring technology
– Innovation dialogue on smart access
– IT and cyber security

Participation is included in your Light + Building ticket.

The lectures are simultaneously translated into German/English.

The essentials:
All you need to know for your visit.

Opening times
18. – 22. 3. 2018   9:00 – 18:00
23. 3. 2018   9:00 – 17:00

Admission prices
Day ticket:
Advance sales/online € 17.00, box office € 19.00
Season ticket:
Advance sales/online € 35.00, box office € 40.00
Day ticket (concessions): € 11.00 at the box office

Online tickets
Buy your admission tickets quickly and easily online in advance at discounted prices at **www.light-building.com**

Getting here
By car: Follow the signs for "Messe" on all motorway (Autobahn) exits. These will guide you to the Rebstock car park. (Nav: "Zum Messeparkhaus Rebstock"). From there, take a free bus to the entrance to the exhibition centre.

By plane: From Frankfurt/Main airport, take S-Bahn (suburban railway) line S 8 or S 9 to Frankfurt central train station (Hauptbahnhof). From there, continue as described below in the "By train" section. A shuttle bus will take you directly to the exhibition centre at a modest price.

By train: From Frankfurt central station (Hauptbahnhof), take tram line 16 or 17, or U-Bahn line U 4, or a taxi directly to the Messe City entrance, or take S-Bahn (suburban railway) line S 3, S 4, S 5 or S 6 directly to the "Torhaus" entrance.
