*by agreement with the Light + Building Team and the Technical Event Management

These specified construction height limits are only applicable for Messe Frankfurt's Light + Building event.

All heights must be checked on location.

Messe Frankfurt is not responsible for the accuracy of the information.

There may be structural constraints in certain halls.

The basic construction height is 2.50 m. Above this height, it is necessary to ensure that the rear sides of walls facing neighbouring stands are smooth and generally of a neutral colour (e.g. white or light grey).
