Her designs were exhibited worldwide including Salone del Mobile Milan; WantedDesign NYCxDESIGN; Maison & Objet and published in media like Vogue, National Geographic, Label Magazine, Archiproduct and more.

Cirrus Lamp

The principle of the project was to explore the material. My goal was to underline the beach wood and possibilities of its processing. Split and bent wood gives the beauty to the lamp. The form follows the function. Three support points at the bottom are the minimum support to give it stability, the gap at the top creates a place for the shade.

Received "Notice" at the Elle Decoration competition Minimalist - Young to Start Mention at portfolio review See&Say
